being five shillings—was asked by the men employed by two coal merchants who complied with the demand. This morning when the steamship "Kincora," from Liverpool with a general cargo arrived in port, the men refused to unload her unless they were paid one shilling a day extra. As those in charge had no authority to grant this, nothing was done for some time, and the labourers subsequently demanded an increase of half a crown, which the Limerick Steamship Company declined to pay. The same thing occurred with the "Lizzie," belonging to Messrs Mullock & Co, coal merchants, which now lies in the dock with full cargo. The "Kincora" is being slowly unloaded by a few men in the regular employment of the company without any interference from the dockers. Two gangs of men refused to work for Messrs Bannatyne, whose storemen have joined the strikers. The "Garryowen" elevator has been taken down the river for the purpose of lightening a big ship belonging to the firm, and the work will have to be done by sailors. During the day the labourers gathered in groups in the vicinity of the Docks, but no unpleasant incident occurred.

A joint meeting of the representatives of the Corporation and Harbour Board was held yesterday in connection with

and useful life in the very prime of manhood, was shown by the enormous attendance of people from the most distant parts of the county, representative of all classes and creeds, and of all sections of political opinion. One word seemed on every tongue, and that was the expression of the loss which public life in Clare had sustained, and which, now that the first appalling shock has passed, is coming home to every thinking mind in its entire magnitude. This feeling found voice to-day, when at the County Council, Dr Daly, solicitor, bore fullest and most touching testimony to the great debt the Council owed to the deceased gentleman. It is needless to say that the Council adjourned at once without transacting any business.
